

AN INVITATION FROM DOWNTOWN REVITALIZATION

Get the facts...be part of the action!

The Residents and Business Surveys conducted this past year by the Downtown Revitalization Project have yielded some very interesting results!

Join us for a RESULTS SHARING MEETING in your community!

This meeting is for you if ...

- You believe in a pro-active approach to business and community building.
- You like the challenge of turning gaps, issues and ideas into ACTION!
- You are thinking of expanding your business or investing in a new one.

The Results Sharing Meetings will give you a good understanding of some of the issues, concerns and opportunities that our residents and business community face.

We encourage you to attend the public meeting in your community in April, in preparation for participation in your community's Action Planning Session in May. The Action Plans will form the basis of the Downtown Revitalization Implementation Phase.
